

SRB SummerSTEMCamp

This summer, SRB is introducing a new Summer Stem & Fun Camp. Your children will explore science, technology, engineering, and math through fun and highly educational hands-on activities.

In addition, they will also rotate daily through organized sports and craft activities.

Three sessions are being offered and will each focus on different topics and activities. You may choose to participate in one session, two sessions or all. Space is limited, so early registration is recommended. *Registration Deadline is May 20th.* Send in one registration form per student along with payment. See more details below. Any questions, contact SRB's school office.

WHO

all incoming SRB K-8th grade
students welcome

WHEN
